

Owl Cleaning Services

Case Study

Harley Street Fertility Clinic

COMPANY DETAILS

Harley Street Fertility Clinic (HSFC) is a family run clinic led by Dr Geetha Venkat, an obstetrician, gynaecologist and consultant IVF specialist, with more than twenty five years experience in the field.

THE CHALLENGE

HSFC is a busy practice with multiple consulting rooms, waiting rooms and various offices for the administrative staff.

HSFC were looking for a company that could clean to the meticulous standards of a medical clinic, as well as handling the other areas of their offices where the support staff work day to day.

THE SOLUTION

Owl performs routine daily cleans as well as quarterly deep cleans of the clinic. Owl's cleaners are fully briefed on the cleaning requirements of the clinic, room by room, and there is a system in place that enables the clinic to quickly alert Owl to any special requirements that crop up, so the cleaning staff can respond to whatever the situation requires.

THE RESULT

Office Supervisor, Krystal Burnett says: "Owl Cleaning Services provides a great service! They always keep Harley Street Fertility Clinic clean for patients and staff. They are dedicated, thorough, trustful and professional"

“

**They are dedicated,
thorough, trustful
and professional.**
